ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Rumney School Board:

My fourth annual report, now presented, contains the usual statistical tables and discussions of those phases of school administration that may be of interest to the people of Rumney.

We were pleased when Mrs. Marie L. Atherton was able to return to Montview last September. Her sympathetic understanding of her children and their high regard for her have done much to overcome the handicaps under which she began her work last fall.

It seems to me that nearly a year and a half of experience has amply demonstrated the wisdom of the plan of reorganization which gives four of our teachers responsibility for two grades each. Any plan that promises an added advantage for children is worth continuing because they are the only reason why we maintain schools.

A new geography series was put into use this year so planned that geography can be finished at the end of grade seven. Next September we can give eighth grade pupils regular work in science in place of the geography they have previously taken. This change will give them an added interest and at the same time better prepare them for high school work.

In the administration of any school system there are bound to be perplexing problems but Rumney has had fewer of them than most other towns. However, this year there are two wholly unavoidable items that give the School Board some worry. Those two are high school tuitions and transportation.

State law grants to every child four years of high school attendance at public expense. High school attendance may be provided within the town of residence or in an out-of-town high school as is the case with Rumney pupils. When financial estimates are prepared in February for the fiscal

year beginning the following July there is no way of knowing either the exact number of pupils for whom tuition must be paid or the amount of that tuition per pupil. The difference between estimated and actual obligations can very well be uncomfortably large. That happened this year when the amount asked for and appropriated proved to be \$780.82 less than actual demands, and yet the Board must meet those demands.

Transportation is another legal obligation when pupils live at least two miles from the school to which they are assigned. Transportation demands like those for tuition, may sharply increase after budget limitations are fixed and yet they, too, must be met. Because of the sharply increased costs of labor and all materials and little interest in bidding on transportation the most favorable contracts the Board could make created an immediate deficit of \$1,355.50. This was both unforeseeable and unavoidable.

Unfortunately, our teachers held contracts providing lower salaries than were paid in any other town in Union No. 48. If we are to maintain the standard of teaching service to which we are accustomed and which every parent has the right to expect for his children a considerable advance in salaries must be provided in the 1947-1948 budget. Schools cannot escape general cost increases that effect every other activity and enterprise.

At this time I ought to commend those who carried out the graeduation exercises last June. In my experience I have never seen an eighth grade do a finer piece of work where precision and poise showed more plainly. It was a performance of which high schools might be proud.

My continued work in Rumney confirms my early impressions of the good judgement and unselfish motives of school board members. Their interest in child welfare and their unfailing cooperation with me are here gratefully acknowledged.

Respectfully submitted, Arthur S. Rollins

Expected days of no school: Sept. 10-Fair; 2 days in October-Convention; November 10 and 11-Armistice; November 27 and 28 Toank giving; January 1 and 2 New Year; May 31-Memorial Day.

This calendar is drawn up allowing a double holiday by including Monday or Friday with the Tuesday or Thursday on which a legal holiday falls. A single detached school day serves for hardly more than bookkeeping purposes and has little school value.

The Commissioner of Education has ruled that 172 days shall be minimum school year to comply with legal requirements. Emergencies, therefore, that are not made up by Saturday sessions might mean an extension of the school year beyond June 4, 1948 to include 172 days.

REPORT OF SCHOOL NURSE

To Rumney School Board;

I herewith submit my report of school nursing from
September 1945 to July 1946.

Children inspected 95

Symptoms of defects:

Dental	30
Tonsils, enlarged or diseased	17
Vision	8
Glands, enlarged	9
Underweight	3

The following corrections of defects were made:

Dental	33
Tonsil operations	9
Vision—6 new glasses, 2 lenses changed.	

5 vision cases were corrected through the State Sight Conservation program.

The Red Cross financed two tonsil operations. The dental corrections were made entirely by private appointments.

In the spring of 1946 two Toxoid Clinics were held at Rumney Village at which 42 inoculations were given to school children. A total of 96 children attended these clinics including pre-school children and children from other towns. All received inoculations. These clinics were sponsored by the State Board of Health and State Board of Education.

3 children had X-Rays at Chest Clinics by the New Hampshire Tuberculosis Association.

No epidemics of childhood diseases occurred up to this time.

77 school calls, 128 home calls and 45 business calls were made by the nurse.

In the early part of the school year 1946 inspection was again made with the following results:

Children inspected	119
Dental defects	32
Vision	4
Tonsil	23
Glands	6
Underweight	5

Seven eye examinations have been made by Sight Conservation since September. One child had a second operation for strabismus.

Two children from Rumney had examination through the Hearing Conservation Program.

Other corrections are being made and will be given in the next report.

Chicken-pox is the only disease which has been prevalent.

The interest and co-operation of all concerned with the health of the school children is greatly appreciated.

Respectfully submitted,

ANNA M. LOVETT, R. N.

School Nurse
